

Infertility affects approximately 15% of couples in the U.S. This has a strong impact on their families and their community. Of these couples, there are 2 million that are waiting to adopt; that means that 36 families are waiting to adopt for every child put up for adoption. The average cost of an adoption in the U.S. is between \$20 thousand up to \$45 thousand. We are raising money to help families with adoption.

Taylor's Archery and Trinity Christian Fellowship are hosting a 20 target FUN 3D Trail Shoot. This will be held approximately 2 miles south of Tims Ford State Park on April 26, 2025.
